CHIMNEY NOZZLE

The Chimney Rose is manufactured by Premier Hose Technologies and is designed for extinguishing chimney (and similar scenario) fires.

It is machined from Aluminium solid bar and anodised to provide improved wear resistance and give excellent corrosion resistance. It has no moving parts and is maintenance free.

CHIMNEY NOZZLE

The Chimney Rose is a low flow nozzle with a 360° spray pattern. A 1/2" Hose Tail allows connection to a length of hose, with a female thread to suit a Universal Chimney Rod. The Chimney Hose can then be connected and operated via a stirrup pump or as part of PHT's Chimney Fire Hose Assembly, which is controlled with a Quick Release Ball Valve Unit, with the water supplied by the HP Hose Reel Tubing.

FEATURES

360° Spray pattern

Hose tail connection to suit 1/2" bore tubing

Threaded connection for a chimney rod

Machined from Aluminium bar and anodised

SPECIFICATIONS

Weight:

0.16 kg

Dimensions:

250mm x 125mm approx

Water Inlet:

1/2" Hose tail

Chimney Inlet:

Universal Thread

Outlet:

360° Spray Pattern

Material:

Aluminium, Anodised
